Name: Diane Pennington
Position: Senior Lecturer
Affiliation: Department of Computer and Information Sciences, University of Strathclyde, Glasgow, UK
Current Project: "Finding solutions to advance digital health for addressing unmet needs in relation to self-harming behaviours" (European Social Fund: Social Innovation Fund).
Contact: diane.pennington@strath.ac.uk

Diane Pennington is a Senior Lecturer in Information Science and the Course Director for the MSc/PgDip in Information and Library Studies in the Department of Computer and Information Sciences at the University of Strathclyde. She is a member of the Strathclyde iSchool Research Group, in which she leads the Information Engagement research area and belongs to the Interactive Information Retrieval research area. She also belongs to the department's Digital Health and Wellness Research Group. She is the Editor-in-Chief of Library and Information Research.

Diane has been researching young people's mental health information needs for over a decade, and is currently leading a project funded by the Scottish Government investigating information needs and potential digital solutions for young people who self-harm.
